

Customer Success Story

Eustis Insurance & Benefits

FULL MOBILE RECOVERY AFTER A MAJOR HURRICANE DISASTER

Eustis Insurance & Benefits recognizes the hard work that goes into building a business. And the company commits to assuring that its clients' hard work is well-protected. This includes being available to service customers, even under the worst of circumstances. As such, Eustis Insurance & Benefits joined Agility Recovery Solutions.

Following Hurricane Katrina, Eustis officials knew the company needed to be available to assist customers with questions and claims, especially after a disaster of such magnitude. So, company officials called Agility for help. Within days, Agility had deployed a full mobile recovery and the Eustis was able to fulfill its commitment to its customers.

"Without Agility's help, there was no way we could have gotten through this. The effort Agility demonstrated in getting our office up-and-running was absolutely incredible. And the benefits of being prepared have been tremendous. The year after Katrina, we are probably going to have the best year financially. A lot of that has to do with our relationship with Agility, our ability to recover and, most importantly, our ability to service clients."

Ward Stallings

Chief Administrative Officer,
Eustis Insurance & Benefits

With an end-to-end solution, such as Agility Recovery, businesses can recover **4 times faster** than with no BCM solution.
