

6 LESSONS LEARNED FROM MAJOR CYBERATTACKS

AS A TECHNOLOGY-DEPENDENT SOCIETY, CERTAIN MEASURES MUST BE TAKEN TO PROTECT NOT ONLY YOUR ASSETS BUT ALSO YOUR CLIENTS' PRIVATE INFORMATION.

ANYTIME,
ANYWHERE

1

Attacks can come anywhere anytime, and can spread wherever they can

NO
UNSUPPORTED
APPS

2

Always run supported operating systems and applications

RESPONSE PLAN

3

Establish and test cyber risk incident response plan to thwart an attack

TRAIN YOUR
TEAM

4

Make sure your workforce is properly trained to notice suspicious activity

BACKUP
STRATEGY

5

Support your critical assets and data with a backup strategy

ESTABLISH
YOUR BCDR

6

Establish a BCDR plan and test it regularly to make sure it does its job
