

**BUSINESSES CAN'T  
PLAN FOR EVERYTHING.  
BUT AGILITY CAN PREPARE  
YOURS FOR ANYTHING.**

## Manage and Execute Your Business Continuity Program

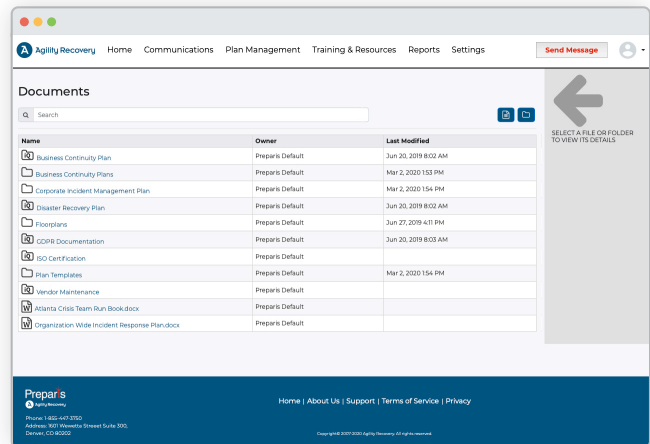

Agility Planner has been developed for professionals in charge of building a business continuity plan. Unlike other options that may include expensive consultants, complex and costly software, or labor and time-intensive processes, Agility Planner provides a simple tool to make business continuity planning achievable for any size organization.

### WHAT IS AGILITY PLANNER

**Agility Planner is a Business Continuity planning and preparation tool that streamlines, simplifies, and supports your BC management process.**

Give your organization access to the historical data and knowledge collected over the past 30 years to help you develop, execute, and share BC strategy documents.

It's like having an embedded consultant at your side to guide you and ask the right questions about your business to create a custom-made BCP.

Directly through Agility Central, your organization gets anytime, anywhere access to its business continuity strategy, allowing to:

- Quickly adjust to organizational changes
- Streamline planning and training
- Support BC metrics' development
- Drive BC program commitment, innovation, and advancement

## WHY CHOOSE AGILITY PLANNER
