

Agility Safety Pass

MONITOR, MANAGE, COORDINATE, AND COMMUNICATE FOR WORKPLACE HEALTH PROTECTION & OUTBREAK PREVENTION

RETURNING TO THE WORKPLACE SAFELY WITH CONFIDENCE

With many organizations returning to in-office work environments, maintaining a safe space for employees, vendors, and visitors can be challenging. Agility Safety Pass offers the utmost streamlined and secure way for companies to manage the full scope of COVID-19 safety needs.

With Safety Pass, companies of all sizes can cover the full spectrum of COVID-19 safety needs. With vaccination record management, testing management, optional symptom screening, close contact tracing, quarantine, and workplace entry verification capabilities, Safety Pass conforms to CDC and any other COVID-19 protocols, helping companies comply with local COVID-19 guidelines and laws and return to the workplace with confidence.

Why Agility Safety Pass?

AN INNOVATIVE & ONE-STOP SOLUTION FOR RETURNING TO THE WORKPLACE WITH CONFIDENCE

Vaccination Record Management

Vaccination surveillance makes it easier for organizations to communicate with employees to collect and verify vaccine status and monitor overall vaccination progress.

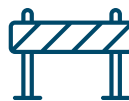

Screening Certification

Screening certification allows organizations to check employees' and visitors' health status and symptoms before they enter the workplace.

Testing Management

Testing surveillance helps organizations collect test results from unvaccinated employees based on schedules, and helps workplaces decide who to admit.

Workplace Health Entry

With the Safety Pass entry badge determined by vaccination status, test result, and screening health status automatically, organizations control workplace entry with ease, as well as the capacity of certain areas in the workplace.

Contact Tracing

Rapid contact tracing based on workplace attendance, vaccination status, and test results helps to reduce virus transmission and prevents shutdowns, and facilitates communications with close contacts.

Quarantine Management

Quarantine management helps organizations manage and communicate with employees in quarantine status and release people from quarantine based on vaccine status and test results.

Agility Safety Pass
